SPECIAL RECOMMENDATION

This device can also be installed with typewriters, Key-punch machine, C.R.T. terminals, key-to-disc and key-to-tape systems.

It is also widely used and recommended by computer centers.

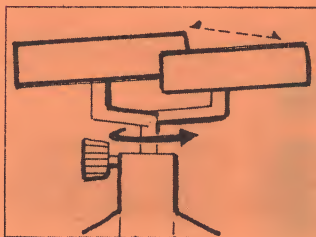

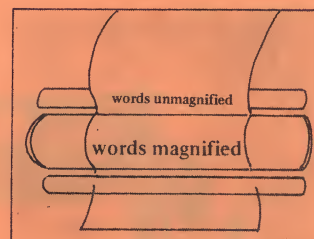

MANUSCRIPT IN FRONT OF YOU

The manuscript is in front of you so that you can type without having to turn the head or lean forward for manuscript putting aside. You will still be in good shape even after long hours of typing.

WORDS MAGNIFIED

The words of the manuscript are magnified through a 20" wide magnifying plastic glass. Any kind of papers including the computer printouts can be well displayed before you.

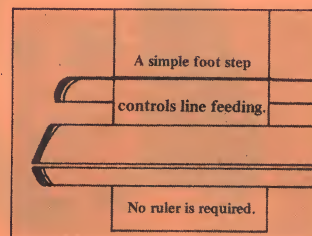

DISTANCE ADJUSTMENT

You can adjust the manuscript holders to a distance best suited to enable a most comfortable typing posture as well as a proper eyesight.

WORDS APPEARING LINE BY LINE

The magnified words of the manuscript appear line by line. A ruler to prevent line-confusing is no longer needed.

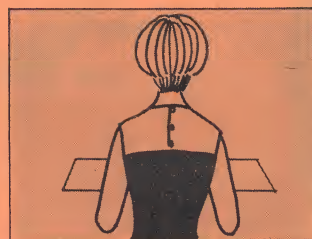

PROCEDURE OPERATED BY FOOT

The manuscript can be easily moved up and down as you control by one of your feet. Free your hands to do efficient typing.

GOOD POSTURE

You can keep a natural and correct posture when typing. No more wry neck and bended body.

PRICE: \$139.50
